MIDDLE SCHOOL Read each of the assigned novels- be prepared to discuss and respond via reflection essays.

Suggested Summer Math Practice for Middle School Students:

<https://www.summersolutions.net/subjects/math>

Choose the Summer Solutions level that matches the grade your child is completing or has just completed. For example, if your child has just finished sixth grade, choose Level 6. Summer Solutions books are designed to revisit skills and concepts that have already been introduced and mastered. The purpose is to allow your child to retain what was learned over the past year and in previous years. Please scroll to the bottom to the regular Math Solutions books. DO NOT purchase the standard based workbooks.
